

Students in Somerville Take Action!

A Picture Story By Lisa Gimbel, the Welcome Project, Somerville

Students talked about what would make it easier to be healthy in our community.

This is the way to walk to the supermarket, where we can get fresh food. It is dangerous to walk in the neighborhood. We don't have enough public transportation.

We went to talk to the Mayor about changes we need. He agreed with us and said he would help us improve public transportation.

One week later we learned the MBTA was going to cut the only bus that comes to our community, the 95 bus.

We participated in rallies and meetings to say “NO!” So did thousands of other people in Massachusetts.

The MBTA agreed to keep the 95 bus! They are still going to raise the price, though. We will keep fighting!
